## BALTIC BIRCH 100% Birch Panel

Baltic Birch is an All-Birch plywood panel from Russia. The color of panels is carefully selected to provide a deep white, uniform pattern in order to meet the requirements of elite furniture manufacturers. The panel is made with many plies (ex. 18mm has 13 plies.) This provides a unique combination of strength, flexibility, and a perfect edge.

Furniture, cabinets, interior fittings, decoration, flooring, roofing, truck floors, concrete shuttering, specialty products and many other applications require the product with these characteristics.

### Baltic Birch Veneer Grade Summary

**Grade B** This is a selected one-piece face, which is generally light and even in color. Some very small, closed pin knots may be allowed, as well as some brown streaks. No patches, voids, or mineral streaks are allowed. The surface is well sanded.

**Grade BB** This is a one-piece face, which is generally light and even in color. Occasional pin knots and mineral streaking is allowed. All open knots and defects other than those allowed in grade B have been cut out and replaced with oval patches. The patch veneer is the same grade and specie, and is typically of the same color. The surface is sanded.

**Grade CP** This is a face that has been graded out from BB for small defects and mineral streaking. CP typically has more patches than grade BB that may not always be matched for color. Some splits of less than 0.5mm are allowed. The surface is sanded.

## Aetna Plywood, your complete source for Duraflake Fire-rated Duraflake Particleboard: MADE IN THE USA!!

**Basic Use:** Duraflake FR is a class 1 rated fire retardant particleboard, suitable for a variety of industrial and commercial building applications where stringent building codes and public safety requirements are a factor. It can be drilled, routed, bullnosed, beveled and precision-machined. It is used as a substrate for wood veneers, high and low pressure laminates, as well as thin roll laminates. Laminated panels are then used in a wide variety of applications such as malls, offices, commercial case goods, hospitals, hotels, restaurants and any application where fire retardancy is a concern.

**Composition and Materials:** Duraflake FR is made from western softwood particles and highly effective fire retardant chemicals bonded with special formulas of resins and waxes.

## FIRE RATED MDF

FR MDF was developed specifically to meet the requirements of Class 1 fire retardation in accordance with UL Flame rating, while delivering performance and environmental features previously unavailable in an FR material.

Applications: FR MDF allows users to meet stricter building codes, reducing liability exposure and providing safer work places and living environments. It is the material choice for:

- Fire rated doors
- Raised floors
- Wall systems
- Elevator cabs
- Furniture and cabinetry
- Shelving and counter tops
- Mouldings
- Architectural millwork
