All with a Balancing "Brown Paper Backer"

Unique Product: Ultra-Core MDO.

Plum Creek plywood is constructed from prime inland Group 1 western softwood veneers known for their tight grain and small knots. Furthermore, Plum Creek's Ultra-Core technology creates continuous, composed crossband veneers for virtually "gap-and-lap-free" cores.

Plum Creek's Ultra-Core MDO is the result of pre-composed crossband cores and an automated lay up process that together minimize core gaps and provide consistently high levels of core integrity. Merchantability, weatherability, durability and thickness tolerance are all enhanced compared to conventional MDO cores.

Plum Creek Ultra-Core MDO gives you what you're looking for:

- Inland western softwood species, featuring tighter grain for higher strength and weatherability.
- Ultra-Core construction means fewer and smaller gaps for increased strength, durability and minimal core telegraphing.
- 2-step overlay process means smoother, more consistent faces.
- Dedicated MDO press allows controlled production runs for greater quality and consistency.

Paint/Lamination/Cut-up Applications

- Ultra-Core construction reduces core voids and gaps to minimize waste in cut parts and increase weatherability and durability.
- 2-step face construction and dedicated press assure consistently high levels of face smoothness for paint and lamination.

* Pricing based on buying full units or all quantities available. Subject to availability

Pricing good through January 31, 2007 as supplies last.

AETNA Is NOW Stocking Homasote 440 Sound Barrier®

YESTERDAY'S NEWS IS TODAY'S COMPETITIVE EDGE.

Homasote 440 Sound Barrier® is made of 100% post-consumer waste paper, without asbestos or urea formaldehyde. So it not only stamps out noise pollution, it is safe and environmentally sound.

BREAKTHROUGH BUT VIRTUALLY UNBREAKABLE.

Homasote 440 Sound Barrier® is the lightweight, structural sound deadening material that replaces lightweight concrete at a fraction of the cost. It works with almost any flooring system and has twice the R value of wood. Unlike concrete, it can be installed quickly and easily by the same crew laying the plywood sub-floor, for faster lower-cost job completion. It's so strong, lightweight, impact-resistant and easy to work with, it's hard to believe how effective it is.

Code	Unit Size	Pieces	Price/piece	Price/unit
17 14 200	1/2" 48 x 96	72	\$20.50	\$19.20
SIZES AVAILABLE AS SPECIAL ORDER				

Thickness	Sizes	Weight lbs./sq. ft.
1/2"	4 x 4, 4 x 8, 4 x 12, 4 x 10, 8 x 12, 5 x 8	1.2
5/8"	4 x 8, 4 x 12, 8 x 12	1.5

Sound Deadening

Deadens sound in residential or commercial buildings. Used in single or multi-family housing, professional buildings. Useful in room partitions.

Bulletin Boards

440 becomes the quick, inexpensive, tackable answer, exterior or interior for any home, office, workshop, factory, etc. Can be painted.

**Fabric Wrap
Wall Treatments**

Ideal substrate for custom textured fabric wrap panels. Provides sound deadening, insulation and tackability.

Aetna Plywood, your complete source for Duraflake Fire-rated Duraflake Particleboard: MADE IN THE USA!!

Basic Use: Duraflake FR is a class 1 rated fire retardant particleboard, suitable for a variety of industrial and commercial building applications where stringent building codes and public safety requirements are a factor. It can be drilled, routed, bullnosed, beveled and precision-machined. It is used as a substrate for wood veneers, high and low pressure laminates, as well as thin roll laminates. Laminated panels are then used in a wide variety of applications such as malls, offices, commercial case goods, hospitals, hotels, restaurants and any application where fire retardancy is a concern.

Composition and Materials: Duraflake FR is made from western softwood particles and highly effective fire retardant chemicals bonded with special formulas of resins and waxes.

WITH OVER 100,000 SQUARE FEET IN STOCK, AETNA'S GOT YOU COVERED.

FIRE RATED MDF

FR MDF was developed specifically to meet the requirements of Class 1 fire retardation in accordance with UL Flame rating, while delivering performance and environmental features previously unavailable in an FR material.

Applications: FR MDF allows users to meet stricter building codes, reducing liability exposure and providing safer work places and living environments. It is the material choice for:

- Fire rated doors
- Raised floors
- Wall systems
- Elevator cabs
- Furniture and cabinetry
- Shelving and counter tops
- Mouldings
- Architectural millwork
