PREMIUM TEMPERED HARDBOARD

This hardboard is a fully-tempered board and smooth on two sides. It is very dense and rigid, making it ideal for painting and any purpose where you would want a strong board.

Aetna now stocks 2 new sizes:

- **1/8" 48 x 144**
- **.22" 48 x 144**

Note: all 1/8" items are stocked on a skid to keep them flat.

UV-WOOD IN STOCK

Pre-finished to give you a big head start.

UV WOOD is pre-finished with acrylate epoxy and cured with ultraviolet lights. This saves you valuable time and money, and eliminates exposure to harmful VOC emissions. And because it's pre-finished, UV WOOD is perfect for any application in which a clear, durable finish is required, such as:

- Cabinets
- End panels
- Vanities
- Shelving
- Case goods
- Drawer parts

Aetna now offers UV WOOD in virtually any combination of specie, grade and core. We currently stock UV WOOD in medium gloss, 48-1/2" x 96-1/2" oversize.

Unit size is 36 pieces for all items.

LEED POINT CONTRIBUTORS

SKYBLEND PARTICLEBOARD:

- SCS Certified
- 100% pre-consumer recycled wood fiber
- Third party verified low formaldehyde emissions (0.00-0.001 ppm)
- Available from Aetna Plywood 1/4" through 1-1/8" thick raw particleboard 1/2" & 3/4" white thermofused melamine

FIRE RATED MEDITE:

- SCS Certified
- 100% post-industrial/pre-consumer recycled wood fiber
- No added formaldehyde
- FSC Certified is available

MEDEX MEDIUM DENSITY FIBERBOARD:

- SCS Certified
- 100% post-industrial/pre-consumer recycled wood fiber
- No added formaldehyde
- Moisture resistant
- In-stock at Aetna Plywood 3/8" through 3/4" thickness
- FSC Certified is available

VESTA FR | fire-rated no added urea-formaldehyde resin particleboard

THE PARTICLEBOARD SOLUTION OF CHOICE FOR FIRE SAFETY NEEDS

VESTA FR particleboard is the no added urea-formaldehyde resin option for building code and project specifications that require fire safety compliance. VESTA FR is a UL approved, Class A / Class fire-rated panel that is ideal for interior, non-structural use in restaurants, schools, hotels, malls, airports, offices and public buildings.

VESTA FR offers:

- Superior strength and dimensional stability
- Low linear expansion and thickness swell
- Smooth surface properties for laminating and finishing
- Easy machining and low tool wear
- Wide range of products and sizes

LEED Qualifying Credits:

- MR 4.1 Recycled Content 10%
- MR 4.2 Recycled Content 20%
- MR 5.1 Regional Materials 10%
- MR 5.2 Regional Materials 20%
- IEQ 4.4 Low-emitting Materials

Grade	VESTA FR Particleboard	
Thickness (in)*	3/8 - 3/4	13/16 - 1 1/2
Specification	Class A/Class 1 Flame Spread	Class A/Class 1 Flame Spread
Density (pcf)	47-50	44-47
MOR (psi)	1,600	1,600
MOE (psi)	300,000	250,000
Internal Bond (psi)	80	60
Face Screw Hold (lb)	250	250
Edge Screw Hold (lb)	225	175
Linear Expansion (%)	0.40	0.35
Thickness Tolerance (in)	+/- .005	+/- .005
Length and Width (in)	+/- 1/16	+/- 1/16
Squareness (in)	+/- 1/8	+/- 1/8

* Metric thickness available. The above properties are based on averages of normal production.

- Material Safety Data Sheets are available upon request
- All panels are approved for use in interior, non-structural applications
- Contains 100% Recycled/Recovered Wood Content
- Conforms to formaldehyde emission requirements for particleboard in ANSI A208.1 Table B and HUD 24 CFR Part 3280

APPLICABLE STANDARD TESTS

- ASTM E 84 Standard Test for Surface Burning Characteristics of Building Materials
- ASTM C 236 Guarded Hot Box Test
- UL 723 Test for Surface Burning Characteristics of Building Materials

BUILDING CODES

- ICC - International Code Council - 2000, 2003, 2006 International Building Code
- NFPA - National Fire Protection Association - NFPA 101 Life Safety Code - NFPA 5000 Building Construction Safety Code

AGENCY APPROVALS

California State Fire Marshall 2660-1627:100, City of New York MEA 177-78-M, City of Los Angeles RR 24811, City and County of San Francisco 6260W34.1B, City and County of Denver M-88-46

Underwriter's Laboratories, Inc. Classified Wood Particleboard Surface Burning Characteristics, UL 723 (Based on 100 for Untreated Red Oak)

Flame Spread	20 USA	25 Canada
Smoke Developed	25 USA	25 Canada

Thermal Conductivity (k) and Thermal Resistance (1/k = R)¹

Thickness (in)	3/8"	1/2"	3/4"	1"
k	0.54	0.62	0.55	0.69
R	1.85	1.16	1.82	1.45

USAGE NOTES:

Some laminates applied to VESTA FR particleboard may change the flame spread rating. Standard available woodworking glues have been successfully used in lamination. However, some adhesives may have compatibility problems with the chemical system used to manufacture VESTA FR particleboard. Any adhesive should be tested for compatibility with the chemical system in VESTA FR particleboard prior to full-scale gluing. Questions should be directed to the glue supplier. When using VESTA FR particleboard in wall systems, an integral vapor barrier must be a properly installed component of the wall in any of the following conditions: the wall has an exterior side and the wall separates spaces conditioned unequally. Joints between panels to be designed to accommodate movement of up to .40 percent. Splined or articulated joints for reveals per AWI Section 500, 500A-G-4 "Joints and Transitions" or similar is suggested.

STORAGE AND HANDLING

VESTA FR particleboard should never be stored or used outdoors. The indoor storage area should be clean, dry, well ventilated, and free of dust, dirt or particles that could contaminate the particleboard. Store flat on stickers on a level, hard, dry surface. Constant relative humidity and temperature should be maintained. Before use, allow to stabilize to the same conditions as are expected after the panel is installed. Condition 48 to 72 hours prior to lamination. For more information, see Composite Panels Association Technical Bulletin: Storage and Handling of Particleboard and MDF.

The D.R.I.V.E. to help you succeed

What began as a modest enterprise during the 1930's has become the Midwest's largest distributor of wood, wood panels, laminate and woodworking hardware.

Our customers range from Fortune 500 to small specialty shops. You'll find our products in all the best places, from O'Hare Airport to the RCA Hoosier Dome, from the Empress Riverboat Casino to Water Tower Place.

But our most important asset is our people. People that understand the importance of quality and deadlines. Specialists that know their product areas inside and out.

Will-Call

Will-Call is available every weekday between the hours of 8am and 4pm. Just give us a few hours, and we'll have it ready and waiting for you.

Delivery

Our trucks are out making deliveries everyday of the week. Your location will determine how frequently we deliver to your precise location. But if your order doesn't arrive the next day, it will likely arrive within a day or two of that.

Selection

Aetna's truly your one stop shop for all your wood, surface and hardware needs.

- Hardwood plywood in virtually any specie, type, thickness, grade and core available.
- Hardwood lumber in any specie, rough or surfaced, straight line-rip one edge, you name it.
- Melamine, particleboard, medium density fiberboard.
- The largest selection of Wilsonart Laminate, including 250 "Standard" colors.
- Woodworking hardware, including a complete selection of hinges, drawer slides, screws/connectors, and decorative items.
- MEGANITE solid surface

Inventory

Aetna is committed to maintaining an unmatched depth of inventory in all of our product categories. This means less time waiting for deliveries, and more time satisfying your customers.

Fabrication

The only thing we cut better than wood products is your cost. Aetna is one of the Midwest's largest producer of component parts. We manufacture to your specifications using the latest high-tech equipment. Tell us what you need and we'll go to work for you.

Resources

We deliver more than the product. We deliver information as well. If you need a recommendation about a material, specie, grade, core or need other technical information then call or email us. If we don't know the answer, we'll get it for you.
